

# NATIONAL OCCUPATIONAL STANDARDS/NATIONAL SKILES (NOS/NSQ) MACHINING

LEVEL II OCTOBER, 2025

#### GENERAL INFORMATION

#### **OVERVIEW**

This qualification is designed for learners interested in pursuing a career in machining, leading to the award of National Skills Qualifications (NSQ). It aims to produce semi-skilled workers or assistants in Machining, at NSQ Level 2, with the competencies necessary to support the Machining workshop.

This qualification is subject to review as needed.

### **QUALIFICATION PURPOSE**

This qualification is designed to develop competence in assisting with machining.

### **QUALIFICATION REQUIREMENTS**

All Candidates must:

- 1. Be medically fit
- 2. Be physically fit
- 3. Be mentally fit (Mental alertness)
- 4. Have achieved all the mandatory units in the qualification
- 5. Be vetted

# **QUALIFICATION OBJECTIVES**

At the end of the qualification, the learner should be able to:

- 1. Apply occupational health, safety, and environmental guidelines
- 2. Communicate appropriately in a working environment with team members
- 3. Work in an environment as a team member.
- 4. Identify the parts and operate the Lathe machine
- 5. Perform basic machining operations such as turning, facing, and threading on the lathe machine
- 6. Accurately measure, mark out, and inspect using precision tools
- 7. Conduct basic machine maintenance to ensure sufficient performance.
- 8. Interpret Basic Engineering drawings and prepare Hand Sketches.

# UNIT ASSESSMENT/EVIDENCE REQUIREMENTS:

Assessment must be carried out in real workplace environment in which learning and human development is carried out. Simulation is allowed in this unit and level.

# **Assessment Methods to be Used Include:**

- 1. Direct Observation (DO)
- 2. Question and Answer (QA)

- 3. Witness Testimony (WT)
- 4. Personal statement (PS) or Reflective Practice (RP)

# **GENERAL GUIDE**

**UNIT 001:** Health, Safety and Environment

**Unit Reference Number:** ENG/MCH/001/L2

NSQ Level: 2

Credit Value: 2

**Guided Learning Hours**: 20hours

**Unit Purpose**: This unit is designed to provide the learner with the knowledge and skills required for site safety, health and environment policies and procedures, maintaining good personal hygiene and application of safe work procedures.

# Unit assessment requirements/evidence requirements

Assessment must be carried out in real workplace environment in which learning and human development training is carried out. Simulation is allowed in this unit and level.

# Assessment methods to be used include:

- 1. Direct Observation (DO)
- 2. Question and Answers (QA)
- 3. Witness Testimony (WT)
- 4. Personal Statement (PS)

UNIT 001: Health, Safety and Environment

LEARNING OBJECTIVE (LO) The learner will:		PERFORMANCE CRITERIA (PC) The learner can:	Evi Ty	iden pe	ce	Ref	dence . Page mber	
LO 1:	1.1	Wear clean, smart and appropriate Personal Protective Equipment.						
Know how to maintain personal health and hygiene	1.2	Work safely at all times, complying with health and safety and other relevant regulations and guidelines.				?		7
	1.3	Identify first aid personnel to apply first aid to treat any cuts, grazes and wounds.	•	C	S			
	1.4	Report illness and infection promptly to the appropriate persons.						
	1.5	State own responsibility under the Health and Safety Act as it relates to own occupation.						
	1.6	State general rules on hygiene that must be followed.						
	1.7	List Personal Protection Equipment						
	1.8	State the importance of maintaining good personal Hygiene						
LO 2:	2.1	State the importance of working in a healthy, safe and hygienic workplace						
Maintain a hygienic, safe and hazard free	2.2	Follow health, hygiene and safety procedures during work						
workplace.	2.3	Describe emergency procedures during work						
	2.4	Describe organizational security procedures						
MAL	2.5	Explain the disposal of waste and pollution control with organic and inorganic waste disposal methods.						
110.	2.6	Identify any hazards or potential hazards and how to deal with it correctly.						
	2.7	Describe the types of hazards in the workplace that may occur and how to deal with them						
	2.8	State hazards that can be dealt with personally and those that should be reported to someone else						

LEARNING OBJECTIVE (LO)		PERFORMANCE CRITERIA (PC) The learner can:	Evidence Type	Evidenc Ref. Paş Number	ge
The learner will:	2.9	State where information about health and safety in your workplace can be obtained			
LO 3: Maintain a hygienic,	3.1	State how to warn other people about hazards and why this is important			
safe and secure workplace	3.2	State why accidents and near accidents should be reported and who they should be reported to			
	3.3	Describe the types of emergencies that may happen in the workplace and how to deal with them			
	3.4	State where to find the first-aid equipment and who the registered first-aide is in the workplace			
	3.5	State safe lifting and handling techniques that should be followed			
	3.6	State other ways of working safely that are relevant to own position and why they are important			
	3.7	Describe organizational emergency procedures, in particular fire, and how these should be followed			
	3.8	State the possible causes of fire outbreak in the workplace			_
	<b>3</b> .9	Describe how to minimize the risk of fire outbreak in the workplace			
Whi	3.10	State where to find the alarms and how to set them off			
VIO.	3.11	State why a fire should never be approached unless it is safe to do so.			
	3.12	State the importance of following the fire safety laws			
•	3.13	Describe organizational security procedures and why these are Important			

LEARNING OBJECTIVE (LO) The learner will:		(PC)	Evid Type	-	e	Evi Ref Nu	. Pa	ige	
		State the importance of reporting all usual or non- routine incidents to the appropriate personnel							
LO 4: Know General		Describe Safety rules guiding specific machine				"			7
Workshop safety	4.3	Identify hearing protection required Identify eye protection required Identify required Footwear			•

		with the ethics of the work environment.						
					1			

Unit 003: TEAM WORK

**Unit Reference Number:** ENG/MCH/003/L3

NSQ Level: 1

Credit Value: 2

**Guided Learning Hours:** 20 hours

**Unit Purpose:** This unit is designed to equip learners with the knowledge and skills necessary to foster team spirit and cultivate a positive working relationship with colleagues.

# Unit assessment requirements/evidence requirements.

Assessment must be conducted in a real-world workplace environment where learning and human development training occur. Simulation is not allowed in this unit and level.

#### Assessment methods to be used include:

- 1. Direct Observation (DO)
- 2. Question and Answers (QA)
- 3. Witness Testimony (WT)
- 4. Personal statement (PS)

Unit 003: Team Work

LEARNING OBJECTIVE (LO)						Evidence Type			Re		nce
The learner will:		The learner can:					Nı	umb	er		
LO 1:	1.1	Identify the need for developing positive working relationships with colleagues.						<u> </u>			
Positive working relationships with colleagues	1.2	Recognise the importance of relating to other people in a way that makes them feel valued and respected.							,		
	1.3	Assist team members when required.									
	1.4	Communicate information to colleagues about one's own work that might affect others.									
LO 2:	2.1	Recognise own role and responsibilities within the teams									
Take responsibilities within the team.	2.2	Perform individual tasks in line with the team rules and regulations.									
	2.3	Participate effectively in earnwork.									
LO 3:	3.1	Work in line with the organisational. standards									
Compliance with the policy	3.2	Use the organisational Code of Practice.									
of the organisation	3.3	Explain the organisational Code of Conduct.

Unit 012: Maintenance of Lathe Machine

LEARNING OBJECTIVE		PERFORMANCE CRITERIA	Evidence		E	vide	ence	
(LO)		(PC)	Type		R	Ref.		
							age	
The learner will:		The learner can:	Num		luml	ber		
	1.1	Define maintenance						
LO 1:	1.2	List types of maintenance						
Know basic lathe machine maintenance	1.3	Explain Preventive and Routine maintenance				7		
	1.4	Explain why maintenance of the lathe machine is essential.			3	X		
	2.1	Identify lubrication points						
LO 2:	2.2	Clean and lubricate the Lathe machine						
Know Routine and		parts						
Preventive Maintenance	2.3	Properly trueing, oiling the machine bed and guideway.						
	2.4	Removal of chips from the conveyor and tray						
LO 3:	3.1	Explain the maintenance record.						
Know Maintenance Records.	3.2	Explain the machine history card.						
Necurus.	3.3	Maintain the machine history card.						
	3.4	Demonstrate recording on the Machine History card.

Unit 013: Tools Handling and Maintenance

**Unit Reference Number:** ENG/MCH/013/L2

NSQ Level: 2 Credit Value: 2

**Guided Learning Hours:** 20 hours

**Unit Purpose:** This unit is designed to provide the learner with the knowledge and skills required for proper tool handling and maintenance

# Unit assessment requirements/evidence requirements.

Assessment must be conducted in a genuine workplace environment where learning and human development training takes place. Simulation is not allowed in this unit and level.

### Assessment methods to be used include:

- 1. Direct Observation (DO)
- 2. Question and Answers (QA)
- 3. Witness Testimony (WT)
- 4. Personal statement (PS)

Unit 013: Tools Handling and Maintenance

#### GENERAL INFORMATION

#### **OVERVIEW**

This qualification is designed for learners seeking to build a career in fitting, leading to the award of a National Skills Qualification (NSQ). It targets the development of semi-skilled workers or assistants in machining, NSQ Level 3, equipped with the skills needed to assist in the Fitting workshop.

#### **QUALIFICATION PURPOSE**

This qualification is targeted at developing competence and assistance in machining

# **QUALIFICATION REQUIREMENTS**

All candidates must:

- a. Be medically fit
- b. Be physically fit.
- c. Be mentally fit (Mental alertness)
- d. Have achieved all the mandatory units in the qualification.
- e. Be vetted
- f. Basic acknowledgement of how to read and write

### UNIT ASSESSMENT/EVIDENCE REQUIREMENTS:

Assessment must be carried out in real workplace environment in which learning and human development is carried out. Simulation is allowed in this unit and level.

### Assessment Methods to be Used Include:

- 1. Direct Observation (DO)
- 2. Question and Answer (QA)
- 3. Witness Testimony (WT)
- 4. Personal statement (PS) or Reflective Practice (RP)
- 5 Assignment (ASS)

# NATIONAL SKILLS QUALIFICATION (NSQ) TABLE

#### **LEVEL III: MACHINING**

### **MANDATORY UNITS**

#### **GENERAL GUIDE**

Unit Title	Provides a clear explanation of the unit's content.
Unit Number	The unique number assigned to the unit.
Unit Reference	The unique reference number given to each unit at qualification approval b
	NBTE.
Unit Level	Denotes the level of the unit within the National Skills Qualification
<u> </u>	Framework NSQF.
Unit Credit	The value assigned to the unit is based on the expected learning time for
Value	an average learner. 1 credit = 10 learning hours
Unit Aim	Provides a brief outline of the unit content.
Learning	A statement of what a learner will know, understand or be able to do, as a
Outcome	result of a process of learning.
Assessment	A description of the requirements a learner must achieve to demonstrate that
Assessment Criteria	the learning outcome has been met.
Criteria	the learning outcome has been met.
Unit Assessment	Any additional guidance provided to support the assessment of the unit.
Guidance	y and the state of the difference of the differe
Unit Guided	The event of the same of the s
Learning Hours	The average number of hours of supervised or directed study time or assessment required in achieving the qualification or unit of the qualification

**UNIT 001**: Health, Safety and Environment

**Unit Reference Number:** ENG/MCH/001/L3

NSQ Level: 3

Credit Value: 2

**Guided Learning Hour**: 20 hours

**Unit Purpose**: This unit is designed to provide the trainee with knowledge and skills of health and safety in work environment.

### Unit assessment requirements/evidence requirements.

Assessment must be conducted in a genuine workplace environment where learning and human development training takes place. Simulation is not allowed at this unit and level.

#### Assessment methods to be used include:

- 1. Direct Observation (DO)
- 2. Personal statement/Learning Journal (PS/LJ)
- 3. Questions and Answers (QA)
- 4. Witness Testimony (WT)
- 5. Assignment (ASS)
- 6. Work Products (WP)

Unit 001: Health, Safety and Environment
